2. the word "SWIFT" appearing in the applicant's trademark  is the trade name being used by our client;
3. the trademarks shown above are registered in Classes 9, 16, 35, 36, 37, 38, 41 and 42 with Class 38 being the most prominent Class for: "telecommunications; including internet-based messaging services for securing e-commerce (including electronics transaction); providing telecommunication services to financial institutions by means of a computer network" which, incidentally, is the same class for which registration is being sought for the trademark ;
4. the trademark illustrated in Fig. 1, although not identical, to the trademark seeking registration bears considerable similarity. There is, therefore, the likelihood of confusion which is likely to mislead the public into thinking that the trademarks are associated and as such may cause confusion;
5. our client has been using the "swift" trademark (Fig. 1) in Belize and worldwide since June 2001 and its services have been utilized by high ranking institutions in Belize but the "swift" trade name has been used since 1974;
6. the "swift" trademark (Fig. 1) has been recognized as one of the top internet-based messaging providers and has gained notoriety and fame internationally and globally. In addition our client has registered the trademark in Bangladesh, Chile, Colombia and Ecuador, among other countries, which are all signatories to the Paris Convention and therefore our client claims priority.
