## SIEMENS

in respect of-

- (a) International Class 7 for electric motors (except for terrestrial vehicles), prime movers and drive motors and associated starters (except for terrestrial vehicles); electric generators; turbines; compressors; starters for prime movers and drive motors (to the extent included in Class 7); compressors for charging internal combustion engines (to the extent included in Class 7); catalytic converters and catalyst supports for internal combustion engines (to the extent included in Class 7); appliances and equipment for the production, control, distribution and delivery of compressed air; pumps (to the extent included in Class 7); machine tools, cutting and welding gear for oxyacetylene metal working processes; pipe shaping machines; machines, devices and appliances for cleaning and treating chemical products; pressure vessels; centrifuges and separating nozzles for uranium enrichment; equipment and machinery for the automated handling of tools and workpieces; systems and components for the disposal of radioactive substances and components; injection nozzles; fuel rails; vehicle fuel-injection valves; filters (to the extent included in Class 7); electric kitchen machines and equipment for the food handling and processing including mincing machines, mixing and kneading machines, juice extractors, centrifuges, slicing machines, grinders, icecream makers; dishwashers; machines and appliances for domestic laundry and textile care including sewing machines, washing machines, spin driers, tumble driers, laundry presses, ironing machines; dry-cleaning machines and appliances; waste disposal units including waste masticators and compressors; electric tools, electric can openers, electric polishers for parquet floorings; polishing for other household applications; electric tools; electric can openers; knife sharpeners (to the extent included in Class 7); robots, electric drink makers; hand mixers;
- (b) International Class 9 for scientific appliances, devices and instruments for laboratory research purposes; electric and electronic appliances, devices and instruments (to the extent included in Class 9); physical, chemical, optical, photographic, nautical and geodetic appliances, devices and instruments; weighing, signalling, measuring, counting, recording, monitoring, testing, control and switching devices; electric switchgear and control cabinets; stacking systems for electric switchgear and control cabinets essentially comprising any combination of apparatus racks, support frames and profiled struts; mounting racks essentially comprising any combination of side panels, connecting bars, locking bars, support bars and guide rails; plug-in modules essentially comprising any combination of parts to locate and/or combine printed circuit boards; thermostats; lasers for technical purposes; electron microscopes; remote control devices; automatic machines which are coin or token-operated; electric and electronic devices for data acquisition, processing, transmission, storage and output, particularly general-purpose computers, central processing units, personal computers, workstations, storage devices, terminals, control devices, printers, interface units and input/output devices including keyboards and displays; teleprinters; photocopiers; fax machines; data processing programs; recording charts for images, tones and data (less unexposed films); electric wires and cables including auxiliary cable laying equipment such as installation rollers, cable rollers, angle suspension brackets, joint box relief systems, drum blocks, cable drums, delivery spools and splicing machines; conductor rails; line and cable accessories; electrical installation material (to the extent included in Class 9) particularly switches, dimmers, sockets, switched socket outlets, splitting boxes, aerial sockets, loudspeaker and junction boxes, communications plug-and-socket devices; window louvre push buttons and switches; thermometers; hygrometers; plug-and-socket connections, fuses, screw-in mini circuit-breakers, proximity switches, residual-current-operated-circuitbreakers, relays, contactors, cable lugs, cable junction boxes, cable cabinets, fuse boxes, branching boxes, junction boxes, distribution cabinets, switchboards, time switches, electricity meters; ultrasonic and infrared transmitters and receivers and associated relay stations for switching, dimming and momentary contact switching functions; modules for switching and dimming; time-delay switches; synchro generators; filament transformers with electric starting aid for brightness control of fluorescent lamps; control gear and automatic control equipment for fluorescent lamps; switching and control gear for building services management systems; signalling devices; door entry security systems; distribution, ducting and laying systems for electrical installations; electric and electronic alarm devices and systems and site security devices and systems, particularly

intruder detection systems and police alarm systems, anti-theft systems, security access systems and video monitoring systems; infrared pass-key systems; autonomous hazard signalling devices and protection equipment for water and fire damage; electronic tagging systems; personal identification devices; electric and electronic equipment and systems for process control engineering; servicing equipment and automated machinery for power plant applications, i.e. pipe testing equipment, equipment for non-destructive testing of materials in power plants, eddy-current test equipment, ultrasound test equipment, leakage detectors, robots, equipment for decontaminating power plant components that have become contaminated with radio activity; electric recording and measuring equipment for air, water and soil pollution, and for noise, vibrations, radioactivity and meteorological data; electrical and electrotechnical devices and systems for water purification and treatment; process engineering equipment, i.e. pressure throughflow measuring instruments, pressure gauges, regulators, actuator drives; electrical and electronic devices for analytical technology such as systems analysis, chromatography, X-ray analysis; X-ray equipment for technical purposes; weighing technology devices and systems; electric couplers; programmable controllers, particularly for machine tools, manipulators, installation and material handling machines; electrical equipment for machine tools and special-purpose machines; devices and their components and systems consisting of such devices and components for the identification and localization of leaks in tanks and containers holding solid, liquid and gaseous substances; equipment for nondestructive materials testing; high-voltage, medium-voltage and low-voltage circuitbreakers and switchgear; h.v.d.c. transmission systems; electric rectifiers and inverters, instrument transformers; arresters; vacuum tubes for switchgear; switchgear cabinets; metering devices for use in conjunction with electricity, gas, liquids and heat; I&C equipment and devices for switchgear and power system control; transformers; power lines and cables; electronic dynamometers and torque measuring equipment; electronic load indicators; solar collectors; emergency power supply devices; electrotechnical, electronic and ceramic components and subassemblies consisting of such components (to the extent included in Class 9); electric batteries; fuel cells; accumulators; solar cells and solar energy systems constructed from them; sensors; optoelectronic components and subassemblies consisting of such components (to the extent included in Class 9); optocouplers; electrical resistors; capacitors; inductors; coils; NTC and PTC thermistors; filters (to the extent included in Class 9); printed, etched, encapsulated and integrated circuits; chip cards; chip card readers; testing devices for electrotechnical and electronic components and subassemblies; magnets and resonators; electronic tubes; surge voltage protectors; equipment for the recording, emission, transmission, reception, reproduction and processing of sounds and/or characters and/or images; communication devices and systems made up of such devices; data transfer and communication devices; devices and systems for mobile radio communications; devices and systems for the transmission of speech, data and images; satellite earth stations; telecommunication equipment cables and lines and optical fibres for electrical and optical transmission of speech, data and images; telephones; telephone systems; videophones; car phones; telephone answering machines; charge indicators; paging systems; telephones with integral fax machines; two-way radios and radio sets; intercom and two-way intercom systems; modems; couplers, transceivers, concentrators, power supply (to the extent included in Class 9) and collision detect devices and optical plug-in modules for fibre-optic communications technology; television cameras; radios; car radios; television sets; record players; CD recording equipment and players; cassette recorders; video recorders; aerials and aerial systems; radar sets; short-wave transmitter and receiver stations; radio access systems; ground-air communication systems; radio direction finding equipment; satellite position fixing equipment; encoding devices; thermal imaging devices; laser distance measuring equipment; IFF systems for aircraft; devices for reception, localization and classification of electromagnetic signals; navigational devices for land vehicles, shipping and aircraft; traffic decoders; pilot computers; on-board computers; devices for airbag diagnosis; temperature sensors; cable harnesses; vehicle wiring systems; motor control devices; ignition, ignition control and ignition trigger devices; devices for fuel injection control and central fuel injection; resonators for automotive engineering; electronic control systems for gear, drive, differential, braking, antiskid, four-wheel steering, damping, self-leveling suspension and clutch systems; automobile diagnostic equipment; acoustic and optical signaling devices and annunciators; devices for railway signalling technology and systems constructed from such devices; electric signal boxes and their components; electro-acoustical and conference systems and equipment for recording and video studios; recording and video transmission and production systems; appliances and devices for cable TV and systems made up of such items; photographic and film equipment including video cameras; loud speakers; loud speaker boxes; microphones, earphones; electronic amplifiers; electric irons; electric cleaning equipment; electric vacuum cleaners and their components particularly vacuum cleaner nozzles and brushes; electric floor cleaners and polishers; electric carpet beaters and cleaners; window cleaning devices; shoe cleaning devices; microchronometers; electric food-wrap welding devices; kitchen scales; personal scales;

- (c) International Class 10 for electromedical, medical, surgical, dental, veterinary appliances, devices and instruments; electromedical appliances and devices, and systems and their components consisting of such, for diagnostic radiology and radiotherapy; fluorescent screens; radiographic devices based on storage phosphor; angiography, cardiography, neuroradiology and subtraction angiography (DSA) equipment; digital recording equipment for contrast medium examinations with real time imaging; instruments and equipment for endourological radiology, functional diagnostics and instrumental urology and for extracorporeal lithotripter treatment of urinary and biliary calculus; devices for treating bone, muscle and tendon disorders; appliances and devices for the recording, processing, storage and reproduction of radiological information; appliances and devices for computer tomography, nuclear magnetic resonance tomography, ultrasonic diagnostics, nuclear medicine, radiotherapy, positron emission tomography (PET); cyclotron for the generation and conditioning of positron-emitting radionuclides; devices for long-term storage and computer-aided evaluation of electrocardiograms, electroencephalographs; equipment for high-frequency heat treatment, electrosurgery, diagnostics and therapy; measuring instruments for cardiac catheterization; equipment for patient observation and arrhythmia analysis; polygraphic and electrophysiological equipment;

measuring stations for medical functional analyses; cardiac pacemakers and defibrillators; telemetry devices for medical applications; respirator equipment; lasers for medical applications; catheters; linear accelerators for tumour radiotherapy; tumour localization devices; dosage planning and documentation devices for tumour radiotherapy; dental equipment and workplace lighting fixtures; dental drills for preparation work; dental turbines; ultrasonic scaling equipment; periodontal diagnostic equipment; devices for the computer-aided preparation of ceramic fillings; diagnostic, treatment and teaching devices for the hearing-impaired; hearing aids, hearing aid spectacles; audiometers and audiometry cubicles; speech hearing training equipment and special equipment for hearing-impaired children; vibrotactile communication equipment; furniture for medical purposes such as positioning tables, examination and operating tables, chairs for patients, work chairs for doctors, cupboards; patient positioning mattresses; wax traps for hearing aids; electrical equipment for personal hygiene and beauty care; i.e. massagers; heat ray devices; electric inhalant atomizers;

- (d) International Class 11 for lamps and luminaires and their components; specular reflectors for lighting fixtures; light distribution appliances; heaters, infrared lamps, ribbed tubular heaters, heating conductors, heating mats, electric underfloor storage heating systems; heat pumps; nuclear reactors; steam generators, driers, refrigerators and ventilators and their components and valves; sintering, smelting, brazing and combustion furnaces; steam condensers; refuse incineration equipment and plants; thermal waste processing systems, particularly comprising pyrolysis drums, high-temperature combustion chambers, flue gas cleaning equipment and separators for the carbonized waste; filters and catalytic converters for flue gas cleaning and for the gas-water cycles of power plants; environmental engineering equipment and systems, i.e. water treatment and desalination plants; landfill gas removal systems including gas utilization and cleanup systems; leachate treatment plants; systems for the production of cooling, domestic and ultra-high purity water; waste heat recovery systems; electrical household and kitchen appliances particularly ovens, cookers, baking ovens, friers, grills, toasters, defrosters and hotplates, microwave ovens; electric grease filter sets and extractor hoods; pressure cookers, ovens, hotplates, immersion heaters, boilers, storage water heaters, continuous-flow water heaters; air humidifiers; upright and chest-type refrigerators and freezers; electric icemakers; driers such as electric tumble driers; electric devices for personal hygiene and beauty care, such as hair driers, heat lamps, hot-air apparatus, ventilators, fans; heaters and air-conditioning systems and devices and ionizer devices to improve air quality (also for motor vehicles); appliances for steam, air and water piping installations and sanitary installations such as mixer batteries, safety valves, pressure reducers; boilers of all types;
- (e) International Class 37 for installation, erection, maintenance, supervision and repair of equipment, products and facilities of electrical engineering, electronics, informatics, medical engineering, precision mechanics, optics and mechanical engineering; laying of land and marine cables; overground workings, underground workings and civil engineering; industrial furnace construction;

The applicant claims that this mark is being used in relation to the goods and services mentioned.

**ANY** person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 2905.05, should do so in writing addressed to the undersigned not later than the 29<sup>th</sup> day of July, 2005.
